

# PPE WORKWEAR REPAIR TRAINING

Leicester **01-02 FEBRUARY 2023**

**An industry-wide skills training course designed for PPE workwear repairers and quality teams, we're delighted to announce we are hosting this tailor-made course in collaboration with the social enterprise, Fashion-Enter Ltd.**

## OVERVIEW

We have developed a PPE Repair Training course in partnership with Fashion-Enter, an award-winning, not for profit, social enterprise, which strives to be a centre of excellence for sampling, grading, production and for learning and development of skills within the fashion and textiles industry. Our Knowledge Network Group have been working closely with Fashion-Enter to identify key modules that will help someone with minimal knowledge to progress on to a level of competence necessary for your quality management needs. This course can enable your PPE/workwear quality team to develop a stable and upskilled group of repairers.

**Day 1** of the course will cover a basic level of understanding to intermediate skills and **Day 2** will handle more advanced modules. The first course delivery is with a 20% further discount on top of the member rate. There are 10 spaces available.

## THE VENUE

Fashion Technology Academy  
Black and Yellow Building  
30 Stonebridge Street  
Leicester, LE5 3PA

## COSTS

The total cost for the two days for members is £400 and for non-members will be £800.

## NEXT STEPS

To book your place, please email Emily on [events@tsa-uk.org](mailto:events@tsa-uk.org) along with your name, job title and contact details and we will send you the course details.

A follow-up **Day 3** for advanced levels will be scheduled within six months to fine-tune skills and cover more complex repair processes. Additional charges apply. More details on this will follow.

PROVIDED IN COLLABORATION WITH **FASHION-ENTER LTD**
