

# SHAPING OUR FUTURE WITH STANDARDS

Birmingham 10 JUNE 2025

**Standards are vitally important in laundry operations. From textile and garment design to managing the end of its primary use, standards play a critical role in modern textile service processes. These standards will become more interwoven into the textiles and laundry sectors.**

## OVERVIEW

From customer expectations to regulatory compliance, standards enable consistent approach to key decisions. There are significant opportunities to explore when it comes to hygiene management, textile product design, machinery safety, laundry efficiencies and textile circularity.

We'll hear from speakers who help steer these conversations on behalf of our industry in Europe and internationally, including Andreas Schumacher, CEO, DTV (German Laundry Industry National Association), and Henk Vanhoutte, Secretary General, European Safety Federation and British Standards Institution. We will also have panel discussions, specific standards updates and opportunities to network.

## VENUE

Crowne Plaza Birmingham NEC, B40 1PS

## WHO SHOULD ATTEND

Quality, production, purchasing, technical and engineering teams together with senior management in laundries with a focus on standards implementation

## TIME

10.00am-3.30pm (including breaks, coffee & networking from 9.30am).

## COSTS

The conference costs £75 + VAT pp for Members, and £150 for non-members.
