

TECHNICAL STANDARDS FORUM

Birmingham - 20 APRIL 2023

The TSA is inviting specific laundry experts to attend the Technical Standards Forum 2023. The day is aimed at updating you on some of the latest developments in the world of standards and to seek your advice and help in forming our position in various BSI, CEN and ISO committees.

OVERVIEW

In addition to the latest developments, many areas relating to laundries have a number of standards currently open and we want to work on representing the interests of the industry together with you. We will be considering several standards and work streams relating to many committees, including the following:

- BS EN 14065
- ISO/DIS 4484-1, 2 & 3 Textiles & Textile Products - Microplastics from Textile Sources
- ISO/TC 94/SC 13 WG 6 Personal Safety-Personal Protective Equipment-Protective Clothing
- CEN/TC 205/WG 14 Surgical clothing and drapes
- CEN TC 248 WG 39 Circular textiles
- EN 17116:2019 Performance and Capacity Measurement Test Methods for Industrial Laundry Machinery

THE VENUE

For this forum we head to the fabulous *Forest Of Arden, Maxstoke Lane, Coventry, CV7 7HR*

TIME

10.30am-3.30pm (including breaks).

COSTS

This one-day forum is free of charge and only for TSA members.
